

I think it is terrible that the Sinclair Broadcasting is allowed to show the Anti-Kerry program which is definitely nothing more than a long political ad for G.W. Bush. It is time our leaders stand up for what is right and fair and stop this from being broadcast. Since it is a campaign commercial, he should be charged for putting the commercial on the air.

We are back to the idea of using any method of slander to help elect an official. It is time the airwaves and media show a fair, even, balanced, factual view of the candidates so the public can make their own informed choices. What are all of G.W.'s people so afraid of that they have to go underground to finance and manufacture anti-Kerry shows that are out and out lies. If his administration is so insecure in their record, then it is truly time for a new administration.

Please stand tall and stop this flagrant misuse of our airwaves. Thank you to those already taking a firm stand on this issue.
